**Office of Communicable Disease Surveillance and  
Epidemiology August 2015 Monthly Infectious Disease  
Surveillance Summary Report**

**Technical Notes**

---

Data were extracted from the Ohio Disease Reporting System (ODRS) on 09/03/2015. All data entered into the ODRS are subject to change; cases are routinely updated and as a result, case counts may change over time. Case counts are based on the CDC Event Code List for Nationally Notifiable Diseases and Other Conditions of Public Health Importance (Hyperlink 1), which is marked for report to CDC. Case counts are based on the earliest of these five dates (event date): date of illness onset, date of diagnosis, specimen collection date, date reported to CDPH, date reported to the Ohio Department of Health. MMWR Months are based on CDC definition (Hyperlink 2).
