

The Respiratory Report summarizes influenza, COVID-19, and Respiratory Syncytial Virus (RSV) activity in the City of Cleveland during each week of respiratory illness season. Respiratory illness season starts at the beginning of October (MMWR week 40) and lasts until mid-May the following year (MMWR week 20).*

Week 40 Summary

- 1.2% of emergency department (ED) visits were for influenza-like illness (ILI) plus fever.
- Zero (0) hospitalizations and deaths were reported for influenza, COVID, or RSV this week. Hospitalization and death data often experience a delay in reporting, so more data for this week may appear on future reports.

Metric	Count This Week (% of total)	Compared to Last Week**	Season Total (% of total)
ED Visits for ILI + Fever	80 (1.2%)	--	80 (1.2%)
Flu Hospitalizations	0	--	0
Respiratory Illness Deaths	0	--	0

**An MMWR week is the CDC’s standard weekly calendar for tracking health data. Each week runs Sunday to Saturday. Each year, Week 1 is the week containing the first Thursday of January.*

***Weekly comparison data will be available starting with the Respiratory Report for Week 41. Data are preliminary and subject to change.*
